Incontinence swimwear

Swimwear
for incontinence

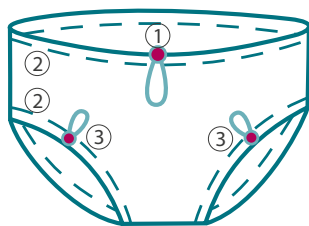

information

the safety briefs

Special designs on request:

- Modified leg and waist measurements
- Manufacture for stoma patients with pockets in the inside of the briefs
- Optimal protection by appropriate setting of contact pressure at waistband and hem

The safety briefs

- ① adjustable waistband
- ② double silicone rubber
- ③ adjustable leg with cord stopper

adjustable leg with cord stopper

double silicone rubber

Awareness of life

- light-hearted visit of swimming pools and water therapeutic institutions with urinary and fecal incontinence

Optics

- no optical difference between incontinence swimwear and typical swimwear
- protection by invisibly integrated safety briefs

Material: polyamide

- water-proof due to PU coating
- fully elastic with Lycra

Waist and leg elastics

- individually adjustable
- fixable with cord stopper

Double silicone rubber

- clings safely to the skin
- prevents urinary and fecal leak

Combinable safety

- additional usage of absorbent pad is possible
- for fixation netpants may be used
