Safe protection - lingerie look

Everyday life is often difficult for people suffering from incontinence. These people prefer to stay at home and often lose their social contacts.

Suprima briefs offer in combination with pads, napkins or disposable panties an ideal protection against incontinence.

Depending on severity and life situation, suprima offers individual solutions for an untroubled life with bladder or bowel weakness.

The number of drops indicates the degree of incontinence for which the product is suitable.

PU (polyurethane)

- breathable, no sweating
- water and urine proof
- elastic
- bacteria and virus-tight
- ecologically safe
- suitable for allergy sufferers; no fungal infestation

PVC

- soft special foil
- water and urine proof
- boil-proof

Cotton

- like normal underwear
- reliable leakage protection

- for light incontinence
- Integrated absorbent pad (Absorbency: ca. 70 ml)
- antibacterial and odour inhibiting
